EDUCATION

United Institute of Technology, Prayagraj	2024 – 2028
B.Tech in Computer Science & Engineering (Data Science)	SGPA: 7.8 (4th Sem.)
Boys' High School & College, Prayagraj	2024
Intermediate (Class XII)	Percentage: 61%
Boys' High School & College, Prayagraj	2022
High School (Class X)	Percentage: 80%

EXPERIENCE & LEADERSHIP

HackerRank Student Chapter – Volunteer	2026 – Present
- Coordinated technical workshops, coding events, and developer meetups to promote AI, data science, and full-stack development. EdTech features among 500+ student participants. - Collaborated with core members to build engaging learning initiatives and drive open-source contributions.	
Open Source Connect India 2026 – Campus Lead & Contributor	2026 – Present
- Campus Lead to cultivate an active open-source culture, organizing technical initiatives and mentoring student developers in git workflows and PR contributions. - Contributed production-grade code, feature enhancements, and bug fixes across community repositories, strengthening technical leadership, collaborative architecture, and open-tech innovation.	

PROJECTS

SAGE – AI Micro-Learning Mobile & Web Application	React Native, React, Vite, Node.js, Gemini AI
- Developed an AI-powered micro-learning platform that converts idle screen time into personalized learning bites. - Implemented scenario-based quizzes, spaced repetition, and voice playback to enhance learner engagement.	
CogniPath – AI Gamified Adaptive Learning Platform	React, TypeScript, Gemini AI, Node.js
- Built an adaptive learning platform that generates personalized roadmaps from books, URLs, and topics using LLMs and prompt engineering. - Designed gamified learning paths with progress tracking, quizzes, and AI-powered insights.	
PathEd – AI Career Guidance & Learning Platform (In Progress)	React, Vite, Node.js, MongoDB
- Building an AI-driven career guidance platform with interactive roadmaps and skill trackers for students. - Developing recruiter dashboards to filter candidates based on real-time skill completion and proficiency.	

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C, HTML, CSS
Frameworks & Libraries: React, React Native, Node.js, Express.js, Tailwind CSS
AI & ML: Gemini AI, Prompt Engineering, LLMs, Machine Learning (Basics), NLP (Basics)
Databases: MongoDB, Firebase (Basics), SupaBase
Tools & Platforms: Git, GitHub, VS Code, Postman, NPM, Vite
Core Competencies: Data Structures & Algorithms, Full-Stack Development, REST APIs, AI Integration, Educational Technology, Problem Solving, Agile Collaboration

CERTIFICATIONS

- Master Class in Artificial Intelligence – Novitech (2026)
- Advanced AI Productivity & Tooling – Be10x (2025)
- Python for Rapid Prototyping – Be10x (2025)

RESEARCH INTERESTS

- Large Language Models and Prompt Engineering
- Adaptive Learning Systems
- AI for Education and Learning Analytics
- Educational Technology and Human-AI Interaction

ACHIEVEMENTS

- Semi-Finalist – Pragatantra 2025 (National Level)
- Active contributor in coding communities and open-source projects
- Consistently enhancing AI, Data Science, and Full-Stack Development skills through hands-on projects and certifications.
